We cannot isolate dogs that are found to be anti-social or exhibit dominant behavior. Should a problem arise, you will be asked to remove your dog and it will be your responsibility to find alternative accommodations for your dog(s). *Flea preventative can be topical or oral and **must be a veterinary approved product** such as Frontline, Sentinel, Revolution, Advantage, Advantix, Comfortis, Vectra, or Promeris. (Over the counter flea preventatives (ex. Hartz, Seargent...) are not accepted as they can be toxic and are very ineffective.)*

Has up-to-date proof of the required vaccinations (listed below*) specifying the dates the vaccines were given and expiration of each, been emailed or faxed to Dog Dreams Inn? Yes ___ No ___

*Required vaccinations: **Distemper, Parvo, Rabies** and **6 Month Bordetella** aka "Kennel Cough".
A Lepto vaccination and heartworm preventative is strongly recommended for our area, but not required.

*Dog Dreams Inn is a highly social environment, therefore Bordetella **must** have been given within the last **6 months** or prior to your visit. Your veterinarian may not normally give Bordetella more than once a year; in which case you will have to request it be given more frequently.*

Proof of vaccinations and all required paperwork MUST be received by Dog Dreams Inn in advance for review and approval by a Dog Care Provider prior to your visit to confirm a reservation.
